

rose  plastic®

AQURADO®

MODULAR STORAGE SYSTEM

**We bring order
to every drawer!**

A strong partner

With headquarters in Hergensweiler rose plastic was founded in Berlin in 1953, and is today one of the leading global manufacturers of plastic packaging.

For decades we have been involved in the development and production of innovative specialised plastic packaging. Whether for medical or dental market, writing

instruments and stationery, hobby and craft, sporting goods, automotive and electronics industry, precision engineering, motorsports or spare parts and engineering components – there is hardly a range of products for which rose plastic packaging cannot be used, or for which we cannot find the correct packaging solution. Today rose plastic is a leading manufacturer worldwide with a vast range of plastic packaging products for the cutting tool industry.

The basis of our success is our comprehensive "know-how" of the processing of plastics, extremely competent and motivated personnel, linked to efficient, cost effective production methods.

Futuristic ideas, consistent quality worldwide, solutions customised to specific

customer needs and speedy delivery – these are the demands of today's markets and those which rose plastic successfully delivers. The fulfillment of customer wishes and the early perception and realisation of market demands are utmost in our aims. Our strength lies in our comprehensive service.

From the initial concept through to finished, printed packaging, rose plastic has everything "in house". We would be delighted to assist with your requirements, and look forward to hearing from you.

Headquarter
Germany

Production Locations
Germany, USA, China, Brazil

Subsidiaries
France, Great Britain, Spain, Italy, Korea, India

Sales Partners
Poland, Turkey, Japan

Worldwide Presence

From its roots in the European market rose plastics' global involvement happened very quickly. In order to provide our customers worldwide with our complete product range, in the same consistent high quality and unique levels of service, we established our own production facilities in USA in 1997, in China in 2004, and in Brasil in 2006.

Through our parent company, with headquarters and Research and Development on Lake Constance, our subsidiaries and sales partners around the globe, we are internationally, exceptionally well represented.

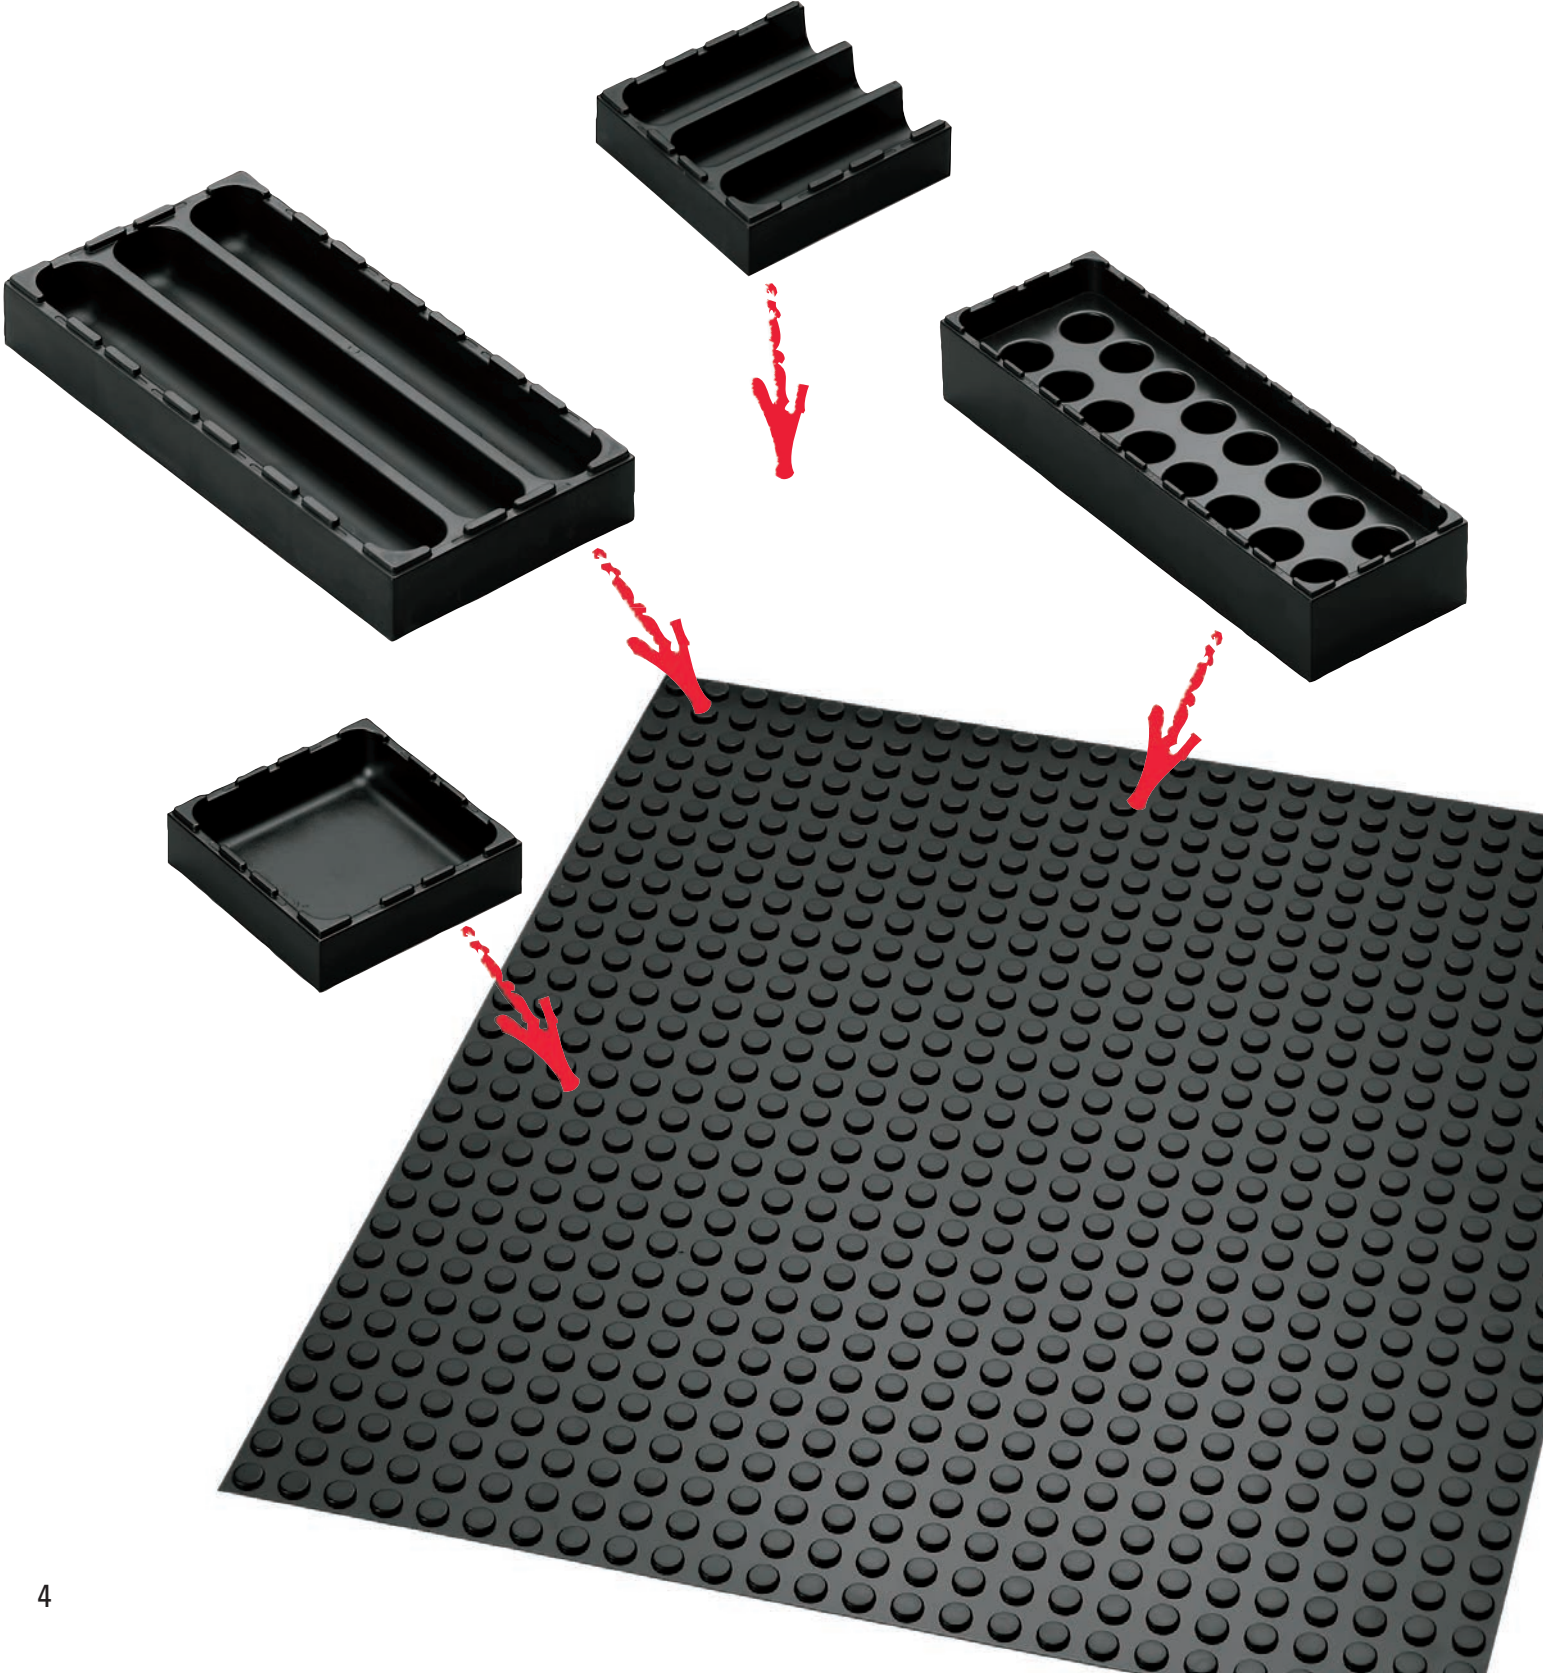

Please have a look through the following pages, and see some of the many possibilities and options which lie behind our AQRADO® storage system.

Details of our complete product range may be found in our homepage www.rose-plastic.com

Peter Rösler

Modular, customised and installed in seconds!

Examples of applications:

With AQURADO® modules everything is clearly arranged - the system has applications in the most varied of sectors, for example for workshop, garage, laboratory, office and home...

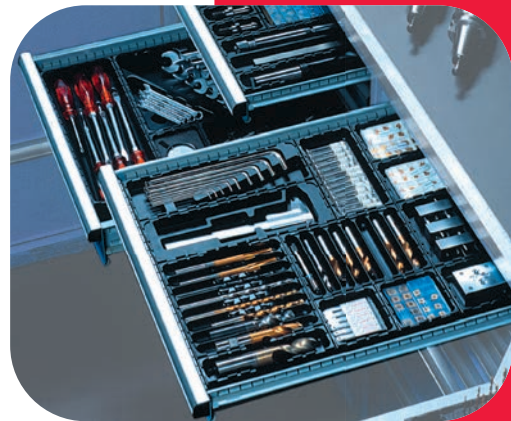

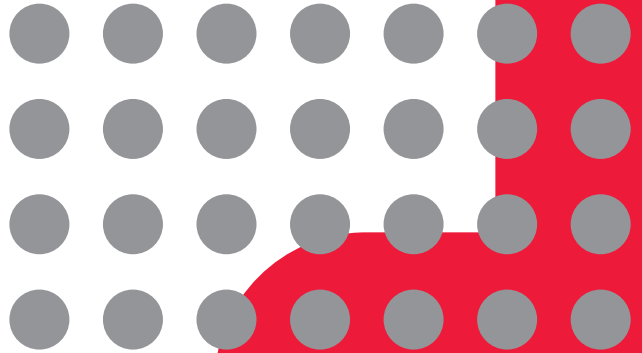

The 5S-Method A place for everything... and everything in its place

With AQURADO® you can achieve storage standard to the 5S-Method, and organise your workstation more efficiently. A well laid out workstation improves working efficiency, reduces time spent searching and thereby increases productivity. With just a little time and expense the error count and safety in the workplace can be improved.

The meaning of the "5 S" Concept:

- Select: Dispose of all unnecessary items in your workplace, and just keep the essentials.
- Sort: Organise the items essential to your work in the best layout for quick and easy access.
- Shine: Clean up your work place, and keep it clean.
- Standardise: Make cleanliness and tidiness your personal concern, and adopt this as standard procedure.
- Self-discipline: Practice the "5 S" Concept daily until it becomes a habit.

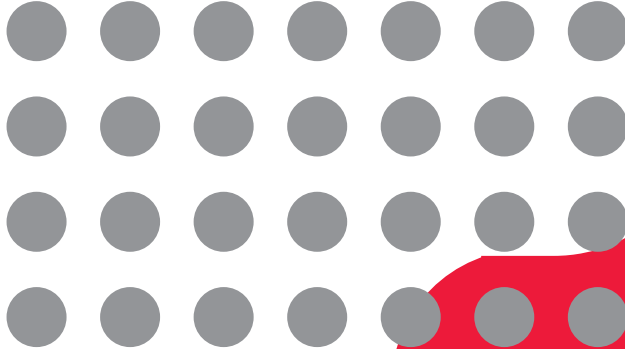

Aqurado® can help you lay out your work place efficiently and cost-effectively.

Clear and tidy - saves time and money!

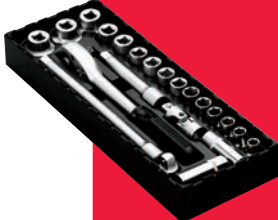

The 'rounded' compartments of the **AQURADO®** modules help extend the life of your instruments and tools.

Module for vernier gauges

Module for socket sets

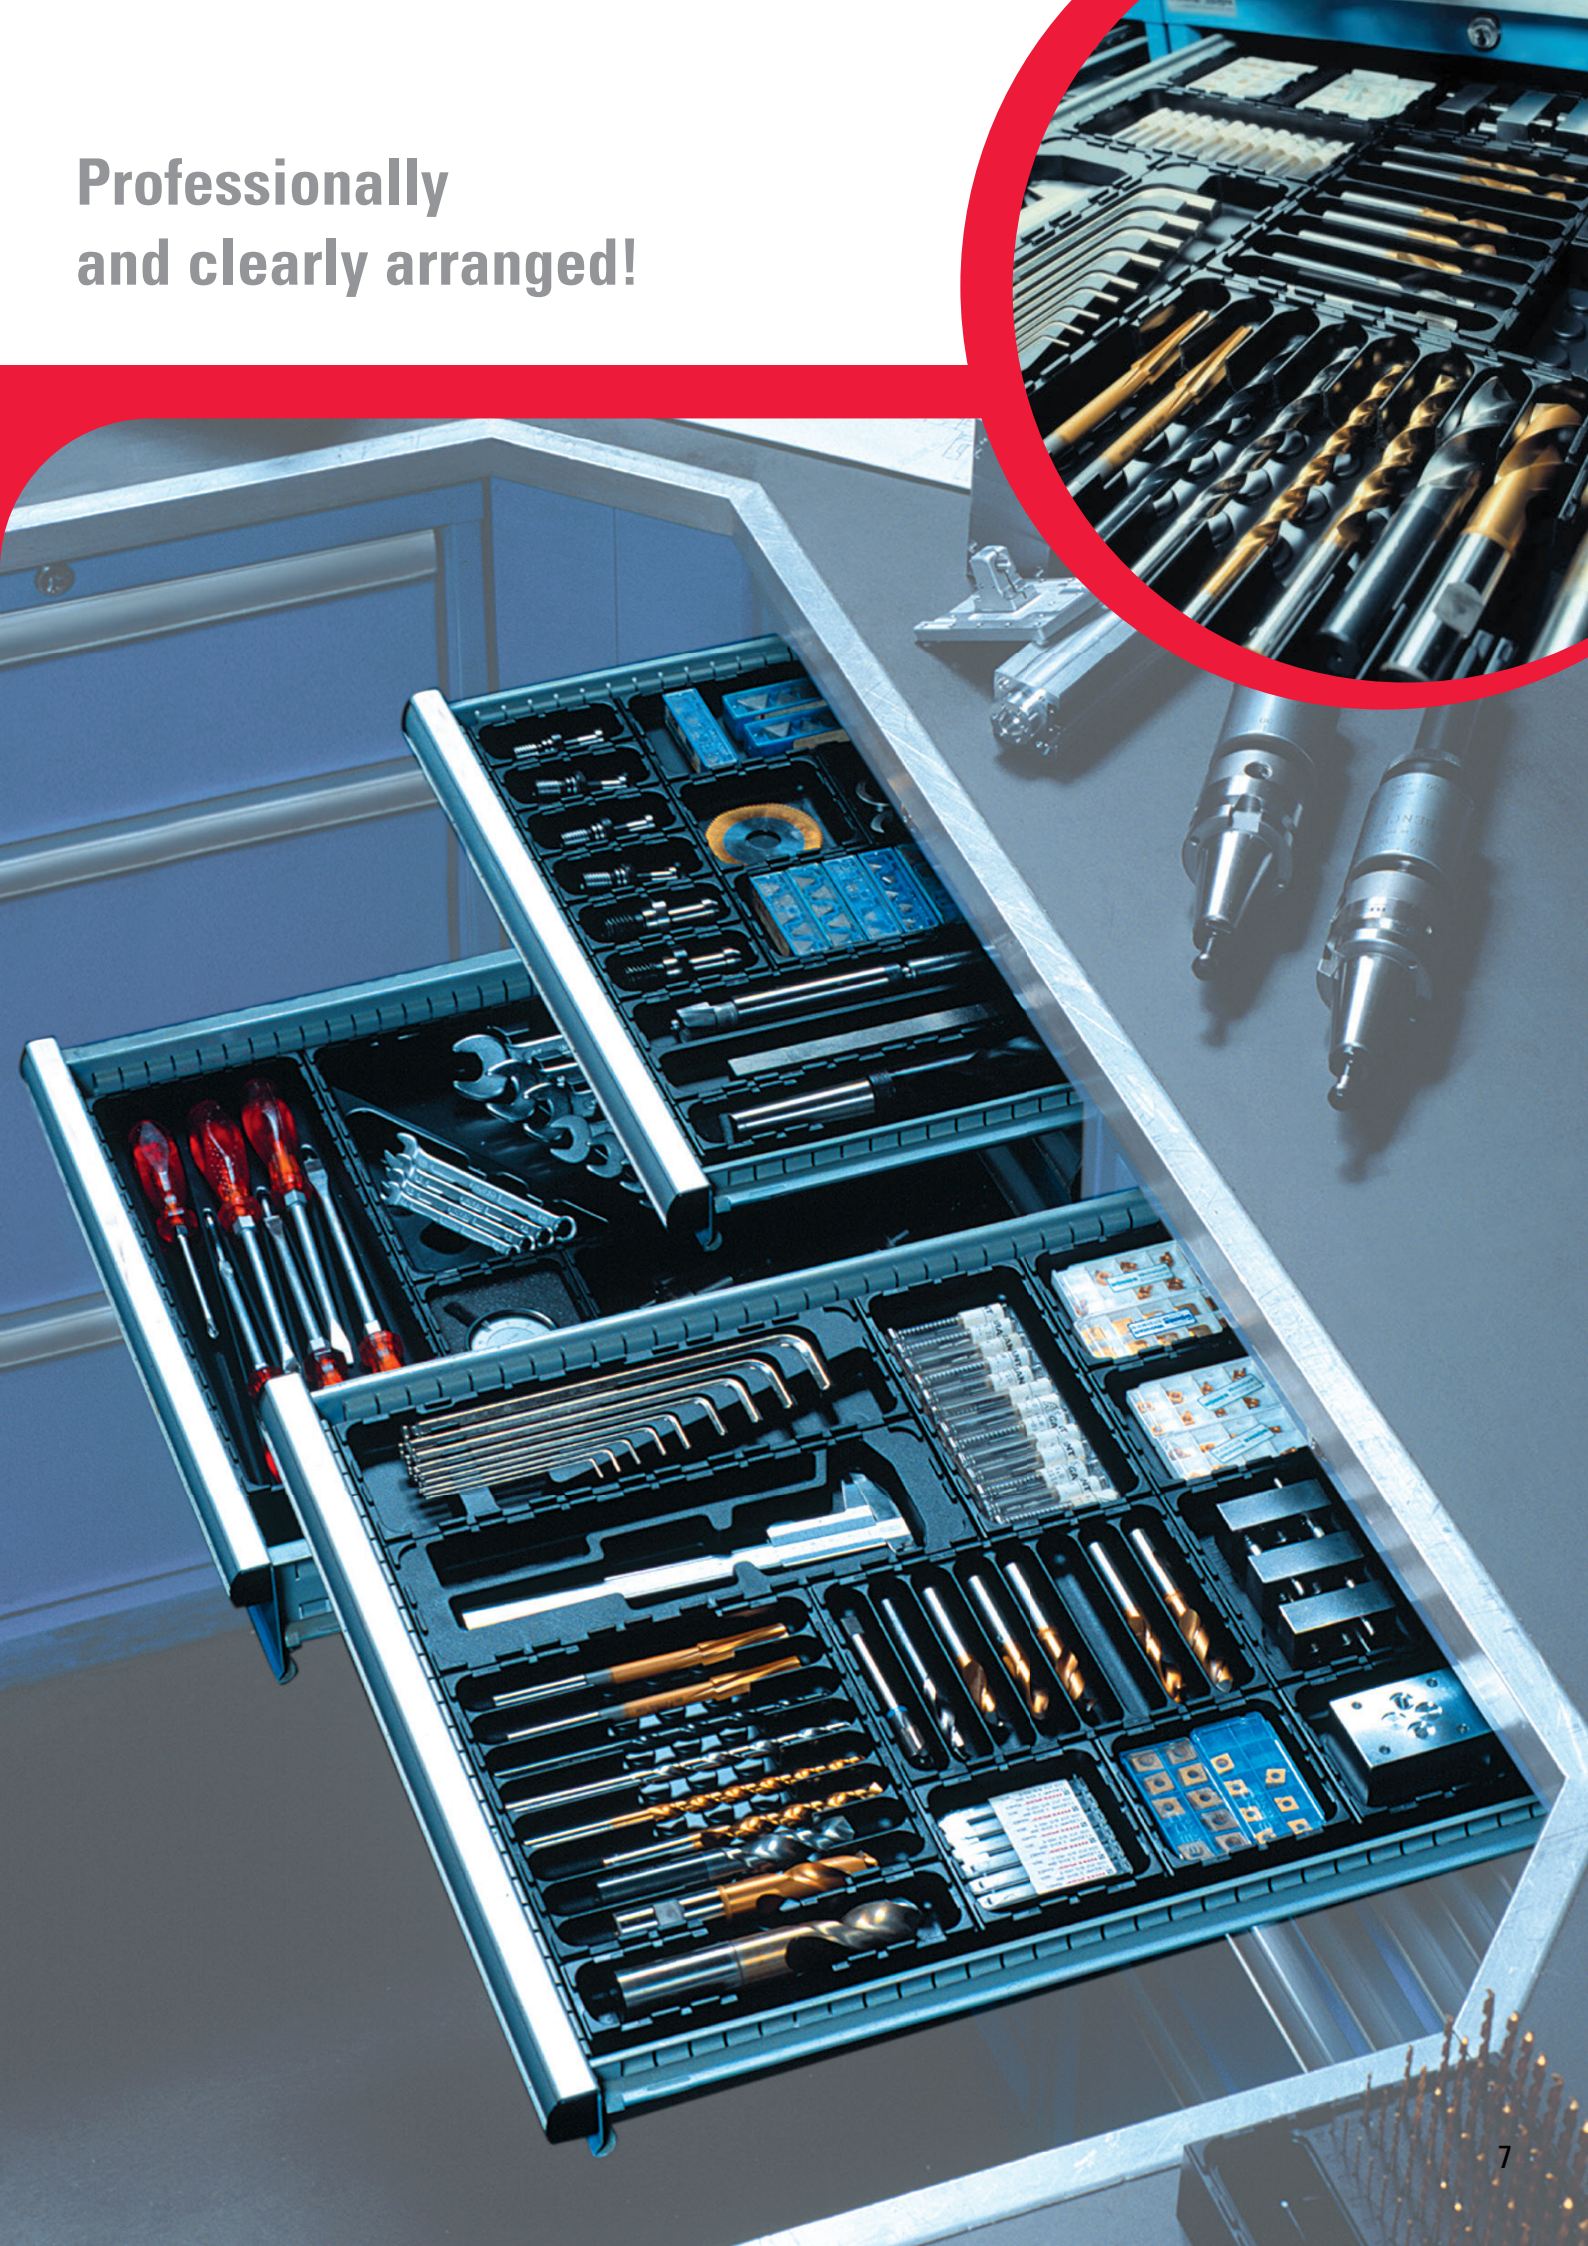

Module for screwdrivers

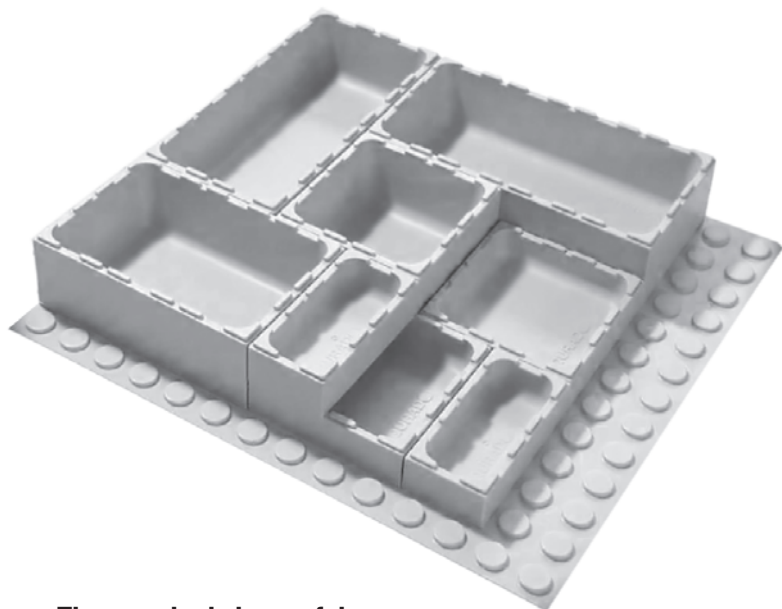

Module for open-ended and ring spanners

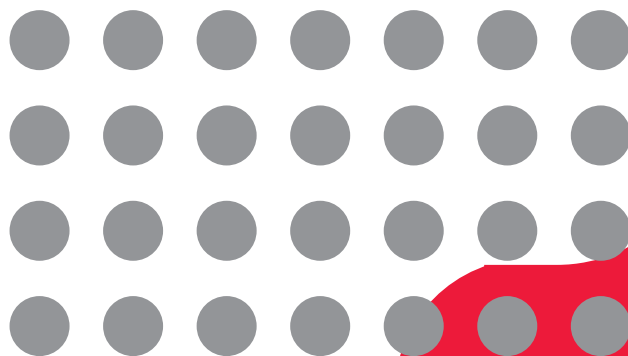

**Professionally
and clearly arranged!**

Create free space for yourself!

The practical shape of the **AQURADO®** modules makes them readily stackable.

Cuvettes

Laboratory items

Small "home" medicine chests

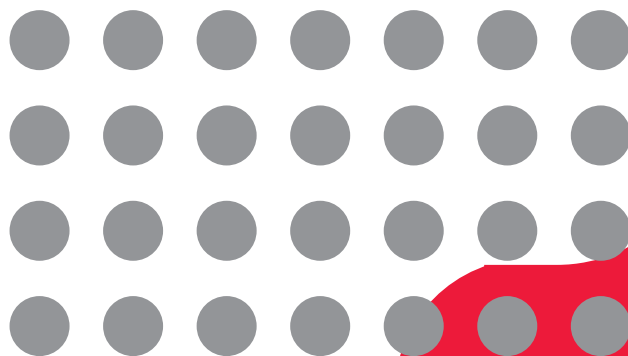

Versatile and stackable!

Everything in the best of order!

Label tabs show the way - no searching.

Module for multi-media,
CD's

AQ-Uni e.g. suitable for
post-it notes

AQ-Uni e.g. suitable for
marker pens

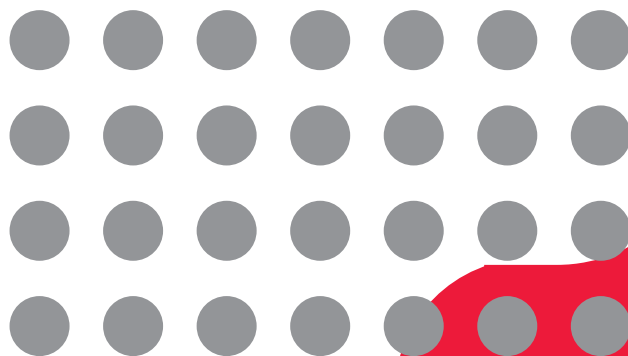

Flexible and expandable!

Excellent solutions for special requirements!

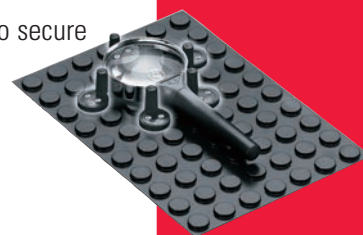

AQURADO® - the system for clear and effective use of your drawer space. The modular concept offers endless applications. Systematically organised - that's **AQURADO®**!

Module with integral slots for insertion of dividers

Eccentric fixing pins to secure items directly onto the base pad

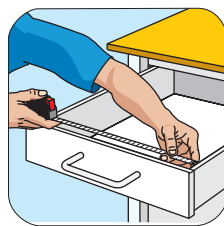

AQ-Vario modules for various long objects

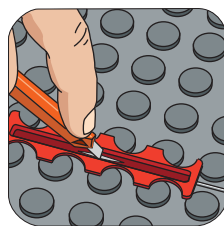

So simple but so efficient also!

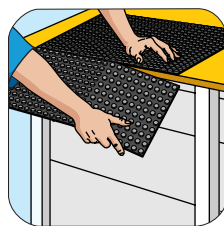

Quick and easy to fit - no marking out.

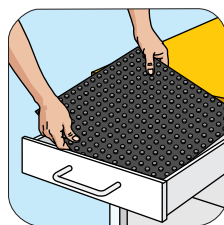

1. Measure the drawer

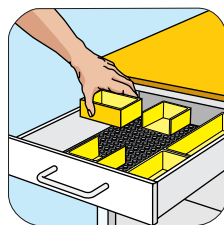

2. Score the base pad

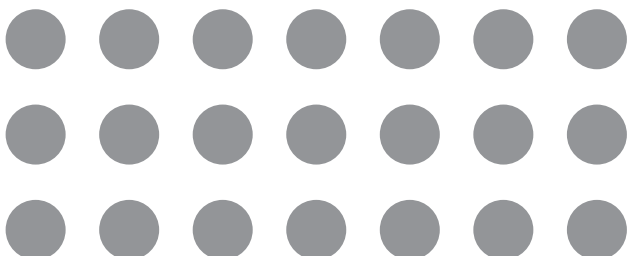

3. Break off the base pad

4. Secure the base pad with adhesive pads

5. Position the modules

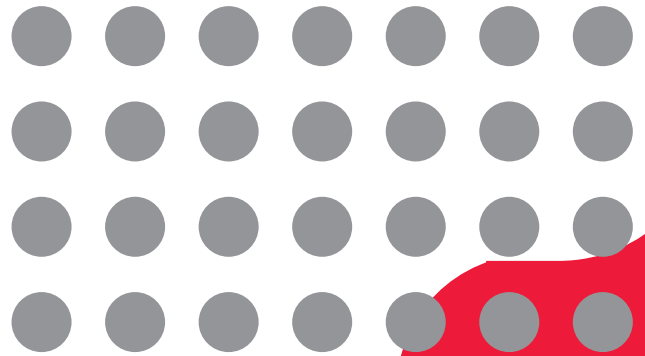

The material.

Top quality, robust and durable plastic guarantees long life. Resistant to oils, petrol, grease, acids and (chemical) bases.

We would be happy to send sample AQURADO® modules for testing.

ABS
in black

ABS
in pale grey

Dependant upon quantity, modules can be supplied in conductive material. We would be pleased to quote for your requirements.
